in Wirtschaftswoche-Ranking
for Industrial Engineering
& Management

Top group in 14 of 17 indicators,
e.g. teaching offer,
internationalization and support
in CHE-Ranking for Industrial
Engineering & Management
and

Top group in 14 of 15 indicators,
e.g. study organization and
support in Information Systems

**KIT is one of eleven
universities of
excellence in Germany**

YOUR ADVANTAGES

Individual design of your curriculum

- Around 200 courses taught in English
- Free choice from the department's course catalogue
- Additional courses from the House of Competence (HOC) and Center of Applied Sciences (ZAK)

Research at the interface of economy and technology

- Excellent research results with interdisciplinary orientation
- 4 disciplines: Business Administration, Economics, Operations Research, Applied Informatics
- Around 50 dissertation theses per year
- Outstanding research infrastructure at the KD2Lab (Karlsruhe Decision & Design Lab)

Strong connection between science and practice

- Practical Team Projects
- Internships
- Cooperation with strong partner network
- Networking in workshops, events, excursions, etc.

Leading start-up ecosystem

- National top ranks of start-ups
- Strong community including the "Pioniergarage" (student's association for entrepreneurship)
- Dedicated entrepreneurial courses mainly in English

Broad international orientation

- More than 70 partner universities in the ERASMUS+ programme
- Member of various internationalization projects and networks
- Professional cooperations all over the world
- Strong support for international students (active student body, buddy and mentoring programmes)
